

## Confined to Her Bed Days at a Time

But Doan's Brought a Quick and Lasting Cure.

Mrs. Herman Ruschke, 177 Fourth St., Long Island City, N. Y., says: "The pains in my back were almost unbearable. I always felt tired and listless and found it almost impossible to attend to my household. Gradually the pains increased—day by day my suffering became worse. Often flashes of light and black specks would appear before my eyes and dizzy spells would come over me. My hands and feet were swollen and my head pained me so at times I thought it would split. My kidneys annoyed me, too. I became dependent. Some times I would have to take to my bed for three or four days at a time. I had the good fortune to hear of Doan's Kidney Pills, so I began using them and was soon back in perfect health again. My cure has stood the test of time, so I am only too glad to recommend Doan's to other kidney sufferers."

## IMPORTANT BILLS ARE INTRODUCED

ONE PROVIDES THAT NONE BUT AMERICANS BE CONNECTED WITH EDUCATION.

### WORKMEN'S COMPENSATION

Prepared by State Federation of Labor is introduced in Both Branches of Legislature—News From State Capitol.

NASHVILLE, TENN.

In the general assembly a number of important bills were introduced, and a good deal of local legislation passed on final reading in both houses. A special message from Gov. Roberts proposing a change in the present method of adopting school books in the state is looked for by the assembly, and following this advice from the governor, bills will be introduced providing legal remedies for the present method, which is pronounced inadvisable at present.

### Only Americans to Teach.

One bill introduced provides that no person who is not an American citizen, or who has not taken steps to become a naturalized citizen of the United States can be school superintendent, principal, teacher, director, instructor or have charge of school children in any capacity in Tennessee. Those who are not now citizens or declarants are given until 1925 to complete their citizenship. Senators Houk and Patton introduced the bill.

### Workmen's Compensation Act.

A workmen's compensation act, prepared by the Tennessee Federation of Labor and which has been under discussion for some time, was introduced in both branches of the assembly and a determined effort will be made to secure its enactment into law. There are about 70 provisions to the bill, and it provides an elective system of workmen's compensation for industrial accidents, rights of employers, employees and third parties to define and regulate the liability of employers to employees for injuries sustained by employees; and goes into every phase of the much mooted question of workmen's compensation. The bill was introduced by Senator Hill, Houk, Dorris, Candler, Carter and Rice of Shelby. In the house the bill was reported by the labor committee of which Larsen of Shelby is chairman.

### To Detach County.

The bill which detaches Wilson county from the Eighth judicial district goes to the governor for disposition. Senator McFarland was the author of the bill, but it was opposed by Florio and Representative Harris and Senator Coleman, whose home county is in the Fifth judicial circuit. Speaker Walker surrendered the chair to Representative Houk to urge the passage of the bill. The opposition contended that there should be a vote of the citizens affected on the matter, but Senator McFarland and Speaker Walker said the matter had been before the people for some time and they were acquainted with all the facts in the case and that it only affected people in Wilson county.

### Reforestation Measure.

In the senate and house companion bills were introduced by Senator Clarke and Representatives Hays and Russell of Maury County as a step to the reforestation of Tennessee. It provides for a day in April each year to be set apart by the governor as Arbor Day or tree planting day.

The governor is to plant a tree on capitol hill and each state official in charge of a state institution is also to engage in tree planting one day in April each year at state institutions. A commission composed of the commissioner of agriculture, state forester, dean of the College of Agriculture of Tennessee and the superintendent of public instruction are to make all plans for the annual tree planting, subject to the approval of the governor of the state. The object is not only to provide for the planting of trees, but to start a movement to encourage and instruct in tree preservation and the rebuilding of the forests of the state, which are rapidly being depleted.

### Attorneys General Must Report.

Under a bill passed on third and final reading by the senate attorney generals are required to make complete reports of all cases in their districts with their disposition to the comptroller every month. No salary warrant will be issued to these officials until the report is made.

### Quietus On Snuff Bill.

The senate put a quietus on the bill which proposed to prohibit the manufacture and sale of snuff in the state, when Senator Bradley called up senate bill No. 99, the anti-snuff bill, from the committee, and moved that it be rejected.

### Arbor, Bird and Flower Day.

A bill was also introduced in the senate designating the first Wednesday in April each year as arbor, bird and flower day in the state, and providing a method for its observance.

### Resolution To ReInstate Officials.

The senate adopted a joint resolution, approved by Gov. Roberts, declaring "That it is the opinion of the sixty-first general assembly of the state of Tennessee that all former officials and employees of the state and its various counties and municipalities who return honorably discharged, should be restored to the positions which they vacated on entering the military or naval service of the United States."

The resolution is as follows: "Whereas, during the great European war a number of Tennessee's patriotic sons, in order to enter the army and navy of the United States, gave up and resigned official positions which they held under the government of this state and its various counties and municipalities, including mayors, aldermen, commissioners, city and county attorneys, engineers and numerous clerks and deputies; and,

"Whereas, Tennessee is justly proud of these men, especially in view of the fact that many of them would have been exempt from service under the selective service act, had they chosen to claim exemption; and,

"Whereas, public opinion is general in demanding that soldiers and sailors be restored to the positions which they vacated on going to war;

"Now, therefore, be it resolved by the senate, the house of representatives concurring, that it is the opinion of the sixty-first general assembly of the state of Tennessee that all former officials and employees of the state and its various counties and municipalities who return, honorably discharged, should be restored to the positions which they vacated on entering military or naval service of the United States."

### Senate Passes Equalization Bill.

The senate passed, on third and final reading, with minor and immaterial amendments, senate bill No. 77, and its companion bill, No. 78.

There were three votes against bill No. 77, the state board of equalization bill, while bill No. 78, the sliding tax rate act, received 31 of the 33 votes in the senate.

The effect of the amendment adopted by the senate makes plainer the purpose of one section, directs that the state board of equalization begin its work as soon as practicable after the bill becomes a law, that the salary of the chief tax collector or clerk and master of the tax tribunal will be \$3,000 per year, instead of \$2,000, as the bill originally provided, and \$4,200 as the senate committee provided. Final action in equalization of assessments must be taken by the state board not later than October.

### Provides Book Sale Registry.

The house passed a bill providing that the governor of the state, or his official chairman of the state board of education, while another bill, which in its origin, provides that a minority party, the Republican party, have a certain proportion of the members of the state board of education. Another bill provides that all second-hand book dealers in the state keep a register of all second-hand books purchased, which must show name, address and some kind of a description of the person selling the book. This is aimed at the book thieves in the state. Failure to comply with the provisions of this proposed law will result in a fine of \$50, and if the offense is repeated the dealer will be prohibited from continuing in the business.

### Will Be Guilty of Felony.

New bills were offered in the senate providing that any person who removed or defaced the number of any engine or motor or who removed an automobile without the consent of the owner or man in charge of it was guilty of a felony, and any person or persons who brought as much as three gallons of intoxicants into Tennessee will be guilty of a felony.

### Wants New Chancery District.

Senator Worley introduced a bill in the senate creating a new chancery district to be known as the Thirteenth chancery division of the state. It will embrace the counties of Greene, Cocke, Jefferson, Sevier and Blount. The governor is to appoint a chancellor to serve until the next regular election.

### Coal Rules Ends Feb. 1.

W. R. Myer, state fuel administrator, announced here that all zone and price regulations on coal and coke, except Pennsylvania anthracite, would be suspended Feb. 1. Mr. Myer says that the state fuel administration had no control over the price of coal at the mine's mouth.

### To Allow Additional Fee.

A bill in the senate by Senator Cameron allows registers of deeds an additional fee of 25 cents when the deed or other instrument contains more than one tract. It also provides for a 25-cent fee in recording double certificates of acknowledgement containing two or more names.

### Bill Names Mothers' Day.

Bills were also introduced to make the second Monday in May each year Mother's Day. White flowers are to be worn for deceased and bright flowers for the living.

### To Allow Justices \$3.00 a Day.

In the senate a bill was introduced to allow justices of the peace \$3 per day for attendance at quarterly court, and mileage when going and coming for not more than two days, and to members living five miles or more from the courthouse.

## COMPULSORY TRAINING

UNDER MEASURE PROPOSED BY INDIANA SENATOR—NATIONAL RESERVE ARMY PROVIDED.

Priority Would Fall on Youngest in Class—Calling of Boys When in Nineteenth Year Is Preferable, Declares New—Limit Is 26.

Western Newspaper Union News Service.

Washington.—Universal compulsory military training for American young men as a permanent national policy is proposed in a bill formally introduced in the Senate by Senator New, of Indiana, Republican. Such a policy, the Indiana senator said, in offering the bill, "provides the only guarantee against any occasion for the maintenance of a large regular army. Training of not more than one year for all young men between 19 and 26 years old—limited to one continuous period and not divided from year to year—is provided by the bill, which was referred to the Senate Military Committee, with suggestion by Senator New that it be laid before the Army General Staff for a report at the next session of Congress.

Under the bill all young men, upon completion of the training period as fixed by the President, would go into a national reserve for call in case of necessity.

Priority of service would be placed upon the youngest in a class. The plan was urged by Senator New as a national policy to be adopted as soon as possible. He denied that universal training involved maintenance of a large standing army and declared it would prevent that situation. In this connection he opposed the War Department's plan for a temporary domestic army of 500,000 men as "neither necessary nor desirable." As stating that misconceptions regarding universal training have arisen, Senator New said:

"Universal training guarantees that the young man who is to be conscripted or who shall volunteer shall go prepared rather than that he shall be taken unprepared. It provided the only guarantee against an occasion for maintenance of a regular army of proportion to the country or is willing to support. Under operation of this system the soldier in reality a citizen free to follow his chosen vocation, except for the short period required for his proper training. We should have at all times on hand the 200,000 men capable of officers."

### Gun Guard Whisky-Running Autos

Lansing, Mich.—An armored automobile hereafter will patrol highways crossing the Ohio-Michigan boundary, as a result of numerous pistol fights within the last few weeks between whisky runners and members of the state constabulary charged with enforcing the prohibition law. Since the federal prohibition amendment was ratified whisky runners between Toledo and Michigan cities redoubled their efforts, according to Colonel Roy C. Vandercook, of the constabulary. Many automobiles transporting liquor, he says, have been found to be carrying experienced gunmen.

### Explosion Wrecks Plant.

Nyak, N. Y.—During explosions and a fire which wrecked the Nyack plant of the American Aniline Products Company, of New York City, one man was killed and thirteen other employees were injured. Several persons have not been accounted for. The dead man was a Japanese. The property loss is estimated at about \$1,000,000. Heavy damages were caused throughout Nyack by the detonations. The high school will be closed for two weeks for repairs. Some of the pupils were injured by broken glass.

### Chinese Educator Is Slain.

Washington.—Washington police were engaged in an attempt to solve the mystery of the killing of Dr. T. T. Wong, chief of the Chinese Educational Mission to the United States, and C. H. Hsieh and Ben Sen Wu, students at George Washington University, whose bodies were found in their home in the fashionable Mt. Pleasant section. Absence of the two students from the university led a fellow student, Kong Li, who lives near by, to investigate.

### Czechs Defeat Poles.

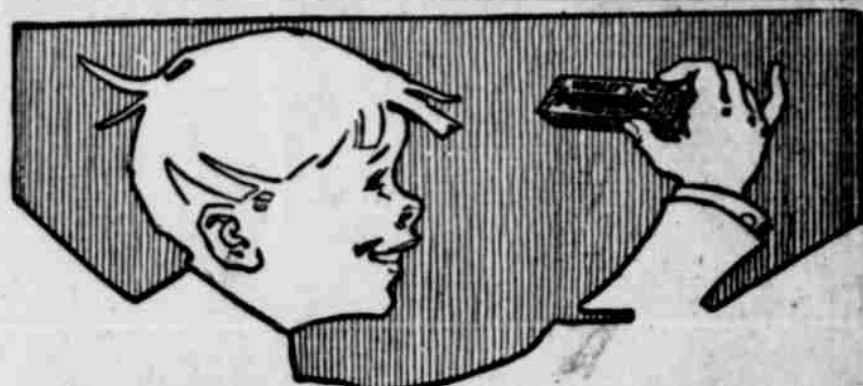

Amsterdam.—Austrian East Silesia has been entirely occupied by Czechs after heavy fighting with the Poles, according to a Vienna news dispatch.

### Food Relief By Airplane.

London.—The Government has allotted a squadron of military airplanes to convey foodstuffs to Belgium for the relief of the population. The service, which is to be daily, will begin immediately between Folkestone and Ghent.

### German Bombs Kill Two.

Mons, Belgium.—Two British soldiers were killed and several injured by the explosion of bombs hidden under coal abandoned by the Germans. The soldiers were engaged in removing the coal when it exploded.

## Western Canada's "Horn of Plenty" Offers You Health & Wealth

Western Canada has helped to feed the world—the same reason for its production still runs upon her. While high prices for Grain, Cattle and Sheep are sure to remain, price of land is much below its value. Land capable of yielding 20 to 45 bushels of wheat to the acre can be had on easy terms at from \$15 to \$30 per acre—good grazing land at much less. Many farms paid for from a single year's crop. Raising cattle, sheep and hogs brings equal success. The Government encourages farming and stock raising. Railway and Land Companies offer unusual inducements to Home Seekers. Farms may be stocked by loans at moderate interest. Western Canada offers low taxation, good markets and shipping: free schools, churches and healthful climate. For particulars as to reduced railway rates, location of land, improved literature, etc., apply to Dept. of Lands, Ottawa, Can., or W. S. Huber, Room 32, Interurban Station Bldg., Calgary, Alta. Canadian Government Agent

### Just Like Father.

"How was the banquet?"  
"Fine. Father gave the toast to the ladies."  
"He did, eh? That's just like him, letting on to a lot of other women that he's so kind and considerate when he wouldn't make toast for me in the mornings if my head was splitting open."

Every woman is apt to be in the wrong until she begins to cry—then she's all right.

### You Never Can Tell.

"You can't believe everything you see in a newspaper, can you?" suggested the chap who never advanced with the rest of civilization.  
"No," answered the policeman. "I pinched a fellow once because he had a suspicious-looking bottle wrapped up in a daily paper, and it proved to be a bottle of horse liniment."

It's what a woman doesn't know about a man that causes her to have a good opinion of him.

## GOOD-BYE BACKACHE, KIDNEY AND BLADDER TROUBLES

For centuries all over the world GOLD MEDAL Haaren Oil has afforded relief in thousands upon thousands of cases of lame back, lumbago, sciatica, rheumatism, gallstones, gravel and all other affections of the kidneys, liver, stomach, bladder and allied organs. It acts quickly. It does the work. It cleanses your kidneys and purifies the blood. It makes a new man, a new woman, of you. It frequently wards off attacks of the dread and fatal diseases of the kidneys. It often completely cures the distressing diseases of the organs of the body allied with the bladder and kidneys. Bloody or cloudy urine, sediment, or "brickdust" indicate an unhealthy condition.

Do not delay a minute if your back aches or you are sore across the loins or have difficulty when urinating. Go to your druggist at once and get a

box of imported GOLD MEDAL Haaren Oil Capsules. They are pleasant and easy to take. Each capsule contains about one dose of five drops. Take them just like you would any pill. Take a small swallow of water if you want to. They dissolve in the stomach, and the kidneys soak up the oil like a sponge does water. They thoroughly cleanse and wash out the bladder and kidneys and throw off the inflammation which is the cause of the trouble. They will quickly relieve those stiffened joints, that backache, rheumatism, lumbago, sciatica, gallstones, gravel, "brickdust," etc. They are an effective remedy for all diseases of the bladder, kidney, liver, stomach and allied organs. Your druggist will cheerfully refund your money if you are not satisfied after a few days' use. Accept only the pure, original GOLD MEDAL Haaren Oil Capsules. None other genuine.—Adv.

## DISTEMPER

or Strangles in stallions, brood mares, colts and all others is most destructive. The germ causing disease must be removed from the body of the animal. To prevent the trouble the same must be done.

### SPHON'S COMPOUND

will do both—cure the sick and prevent those "exposed" from having the disease. Sold by your druggist or the manufacturers, Spohn Medical Co., Milwaukee, Wis., U.S.A.
